

(573) 321 – 4210

sales@coppercreekammo.com

Thank you for your ordering our Remanufacturing Services. Please read the following instructions for shipping your fired brass to us.

- Please keep your brass sorted. You only need to send us fired brass. If you have plastic boxes you'd like to use instead of our 20 round boxes, then you can send them as well, and your loaded ammunition will be returned in those boxes.
- If you are sending a piece of brass that was fired in your rifle for measurement, please be sure that is labeled clearly and sent in separate packing than your other brass. A sharpie labeled sandwich bag is a great way to separate that piece of brass.
- Your Order number is how we will match your brass to your order! Please clearly write the order number on your box as instructed to the right.
- As a reminder:

<b>DO NOT SEND:</b>	<b>These are Preferred Brass Brands</b>
Armstrong, Bertram, Jamison, Prvi Partizan (PPU), Quality Cartridge, RCC (Roberson Cartridge Co.), Range Pickup Bras	ADG, Alpha Munitions, Dakota, Federal, Gunwerks, Hornady, Jagemann, Lapua, Norma, Nosler, Peterson, Remington, Sig Sauer, Starline, or Winchester
